Sleek Android Tablets

The Perfect Fit for Modern Meeting Room Solutions

At the heart of every efficient smart meeting room is the perfect blend of hardware and software and that's where our MeetSync-enabled Android tablets come in. Purpose-built for modern business environments, our industrial-grade tablets are designed to deliver seamless performance and premium aesthetics.

Edge-Surrounding LED status Lights

Tablets come equipped with a built-in LED status light, elegantly facing the wall providing a subtle visual cue without disrupting the room ambiance or causing eye strain. This design choice not only enhances visual comfort but also blends beautifully into contemporary interiors.

Sleek and slim exterior design

Whether it's scheduling, room management, or streamlined check-ins, tablets integrated with MeetSync offer a reliable, stylish, and smart solution for today's connected workplaces.
